

Title: E-Commerce Solutions Repository Overview

Version: 1.0.0 | **Date:** November 2025

Description

This repository includes a sample **E-Commerce front-end application** showcasing product display, cart management, and order total calculation.

It provides a simple demonstration of how e-commerce logic can be handled using HTML, CSS, and JavaScript.

Contents

1. overview.pdf – Repository summary
 2. E-Commerce-Solutions.zip – HTML/CSS/JS demo with JSON data
 3. README.md – Project documentation
 4. LICENSE – MIT License
 5. version.txt – Version info
-
